

2010 PHYSICIANS APPRECIATION NIGHT

The physicians and medical facilities who participate in PLAN are volunteers, and their work is greatly appreciated!

PLAN of Collier County celebrated the generosity of its physician and medical facilities members at its annual appreciation event on Friday, September 24, 2010, at the Naples Yacht Club. More than 100 supporters attended the event, which included a wine tasting, entertainment by a sleight-of-hand artist, and creations by a local caricature artist.

During the evening, Executive Director Deb Cecere announced that the agency will receive more than \$3.5 million in donated physician services in 2010, the highest rate of annual participation since the agency's inception in 2003.

In this time of great need amid a changing healthcare landscape, PLAN is grateful to the physicians and medical organizations that donate time and services to those most in need, and to the sponsors who help us put on events like this one and continue to coordinate care for those without insurance.
